

PSEG Long Island ***Dusk to Dawn* Lighting Program**

Thank you for your interest in outdoor area lighting through our Dusk to Dawn program. The program offers high-efficiency LED or High Pressure Sodium light fixtures with one low monthly bill that includes installation, maintenance and electricity.

Plus, our fixtures are "full cut-off," minimizing the impact of lighting on our neighborhoods and night sky.

The right outdoor lighting welcomes and watches over the people and property you care about. Our professionals are here to help you design the right solution for any of your lighting needs, such as parking lots, around buildings and even in large commercial/industrial areas. All fixtures are utility pole mounted.

Please note: Because the hours of light operation vary seasonally, the monthly fee will vary.

To request a site visit and lighting installation, please complete the attached application/contract agreement and submit it by:
