# HOSTING CAPACITY MAP UPDATES

## 2019 Utility 2.0 Filings – June 28, 2019

- ❖ Hosting Capacity maps were proposed as part of 2019 Utility 2.0 filing which is a public document
- ❖ Hosting Capacity Stage 2 maps will be implemented for 2020 – Pending Review

## System Platform

- ❖ To be discussed further with IT once the project is accepted under the filing

## Stage 3 Hosting Capacity Maps

- ❖ Future enhancements to the maps will be considered as we move along with the implementation of Stage 2.

## Current Efforts

- ❖ Working on establishing GIS feeder models to be utilized for hosting capacity maps
