

South Fork RFP

Last Updated: December 31, 2022

LIPA has PPAs with three projects totaling 140 MW from this procurement. In addition, PSEG Long Island has an Energy Service Agreement with AEG, which had an average Delivered Peak Demand Savings of 6.95 MW on curtailment event days in 2022.

1. South Fork Wind¹: 130 MW (Offshore Wind), Construction in Progress

Applicant: **South Fork Wind, LLC**

Developers: Consortium of Ørsted² and EverSource

Location: Approximately 30 miles east of Montauk Point (Delivery Point is in East Hampton)

Website: <https://southforkwind.com><http://dwwind.com/project/south-fork-wind-farm/>

2. East Hampton Energy Storage Center: 5 MW, 8 Hour (Lithium Ion Battery), In Operation

Applicant: East Hampton Energy Storage Center, LLC

Developer: NextEra/National Grid

Location: East Hampton, NY

Website: www.nexteraenergy.com

3. Montauk Energy Storage Center: 5 MW, 8 Hour (Lithium Ion Battery), In Operation

Applicant: Montauk Energy Storage Center, LLC

Developer: NextEra/National Grid

Location: Montauk, NY

Website: www.nexteraenergy.com

4. AEG Load Reduction Resources: Initial target of 8.2 MW (Various resources), 6.95 MW In Operation

Developer: AEG / Ameresco³

Location: Various

Website: www.appliedenergygroup.com / <https://www.ameresco.com/>

¹ LIPA and Deepwater Wind initially entered into a PPA for 90 MW of capacity. At its November 15th, 2018 meeting, the LIPA Board of Trustees approved the term sheet for the incremental 40 MWs of capacity to the existing Deepwater Wind South Fork contract. The amended PPA was approved by the NYS Comptroller's office on April 9, 2021.

² Deepwater Wind was acquired by Ørsted in 2018. EverSource subsequently purchased a half interest in the project.

³ Ameresco acquired AEG in July 2011
