

# Fleet *Electrification*

PSEG Long Island takes the guesswork out of transitioning to an electric fleet. Our Fleet Advisory Services and incentives save you time and money.

## Benefits of Electrifying Your Fleet:

- PSEG Long Island incentives can offset infrastructure costs
- State and local incentives may save you more during the transition
- Lower vehicle maintenance costs
- Lower fuel costs
- No tailpipe emissions
- Improve company image
- Meet your sustainability goals
- Driver satisfaction – quiet operation
- Lower cost of electricity when charging overnight

## Fleet Advisory Services

A great place to start is by talking with the PSEG Long Island **Fleet Advisory Services** team. This **FREE** service is available to all fleet operators within the PSEG Long Island service area. We are prepared to assess your site/fleet, review the impact of cost savings when making the transition, discuss other program incentives and more. With our assistance, the transition to an EV fleet can be trouble-free.

## Fleet Advisory Tool

You can also utilize our interactive **Fleet Advisory Tool** on our website. After gathering some information from you, the tool will help you determine the best EVs and chargers for your business along with reviewing eligible incentives.

## Fleet Make Ready Program

When you're ready, apply for the Fleet Make Ready Program, which supports the development of infrastructure for public fleet, public transportation and private fleets across all vehicle segments. We'll help lower the cost of installing charging infrastructure. Customers can earn up to **\$200,000** for public transportation, **\$130,000** for public fleets and **\$80,000** for private fleets.
