COMFORT

NEWSLETTER

Stay in the know with the latest program updates, and helpful tools to support your work. Whether you're in the field or behind the scenes, we're here to help you deliver energy-efficient comfort to every customer. PSEG Long Island's **home efficiency programs** provide customers with a free whole-house energy assessment, unlocking opportunities for energy-efficient upgrades and long-term savings.

Partner with PSEG Long Island through the **Home Comfort, Home Performance, and Commercial Efficiency** programs to deliver top-tier home and business energy upgrades. As a partner, you'll have access to incentives and resources to grow your business and reach more customers. Not a Partner? Enroll today by completing the PSEG Long Island [Online Partner Application](#).

KEY DEVELOPMENT

JOIN US TO CELEBRATE A SUCCESSFUL 2025 AND KICK OFF AN EVEN STRONGER 2026

PSEG Long Island is grateful to our dedicated partners for making 2025 a standout year, delivering exceptional results for our Energy Efficiency Programs and the customers we

serve. We're excited to celebrate these achievements and discuss how we can continue supporting you with the tools and insights needed to bring even more value to Long Island businesses and homeowners. Join us at our free annual event on **January 29 at 7:30 AM at the Hilton Long Island/Huntington**, where you'll hear directly from PSEG Long Island leadership about the 2026 Commercial and Residential Energy Efficiency Program updates and connect with industry peers who share your commitment to advancing clean energy solutions. **New for this year will include 3 workshops on Integrated Controls, Manual J, and Home Energy Assessment Tools.** [Register today!](#)

RESOURCES TO STRENGTHEN HEAT PUMP DESIGN AND PERFORMANCE

[NEEP](#) released two new resources to help advance cold-climate heat pump adoption and strengthen market outcomes. One offers detailed training recommendations for designing and correctly sizing air-source heat pumps to ensure systems meet real-world heating and cooling demands. It highlights the importance of proper load calculations, equipment selection, and system configuration to maintain performance and customer comfort. The second resource outlines recommendations for improving heat pump performance data, emphasizing key data contractors need and practical ways to increase their availability and consistency. These tools work together to support better equipment selection, stronger installations, and more informed customer decisions.

KEY DEVELOPMENT

RENEW YOUR PARTNERSHIP FOR 2026 AND KEEP DELIVERING COMFORT

PSEG Long Island's 2026 Home Comfort and Home Performance Program re-enrollment is now open through the Partner Portal! Stay connected and continue accessing valuable program resources, training, and

opportunities that support both your business and your customers. Learn more and get started at the [Partner Portal](#).

Not a partner yet? Enroll today by completing the PSEG Long Island Online [Partner Application](#). As a partner, you'll be able to assign rebates directly to your company, be listed on the PSEG Long Island website, receive 75% reimbursement on program-related tool purchases, and participate in a free training on ACCA Quality Installation and Integrated Controls procedures.
