

HOME COMFORT NEWSLETTER

Stay in the know with the latest program updates, and helpful tools to support your work. Whether you're in the field or behind the scenes, we're here to help you deliver energy-efficient comfort to every customer. PSEG Long Island's **home efficiency programs** provide customers with a free whole-house energy assessment, unlocking opportunities for energy-efficient upgrades and long-term savings.

Partner with PSEG Long Island through the **Home Comfort, Home Performance, and Commercial Efficiency** programs to deliver top-tier home and business energy upgrades. As a partner, you'll have access to incentives and resources to grow your business and reach more customers. Not a Partner? Enroll today by completing the PSEG Long Island [Online Partner Application](#).

KEY DEVELOPMENT

INTRODUCING THE HOME COMFORT ADVANCED REBATE CALCULATOR

[The Home Comfort Advanced Rebate Calculator \(ARC\)](#) is now available to help PSEG Long Island Home Comfort Partners estimate rebates and confirm system sizing in

just a few clicks. Designed to streamline project planning, ARC makes it easier to deliver accurate, incentive-ready proposals for customers considering high-efficiency heating upgrades. For ccASHP projects, the tool includes an embedded NEEP product list to ensure only eligible equipment is used when calculating rebates. While ARC provides estimates only and final eligibility and rebate amounts are determined by PSEG Long Island through the Home Comfort Application, it gives partners a fast, reliable way to size systems, verify equipment, and show customers their potential savings. The 2026 Program Application can be [found here](#).

GROW YOUR HEAT PUMP BUSINESS WITH CLEAN HEAT CONNECT

[Clean Heat Connect](#) is a valuable online resource for HVAC contractors and heating professionals across New York State who want to grow their heat pump business. The platform connects installers

with manufacturers, distributors, and industry experts while providing easy access to training, technical guidance, and practical tools for cold-climate heat pump projects. Contractors can use Clean Heat Connect to access live and on-demand trainings, best-practice installation guides, system design resources, and sales and incentive tools that help streamline projects and improve customer confidence. These resources make it easier to size systems correctly, avoid installation issues, and clearly explain the benefits of heat pumps to homeowners and businesses.

CONGRATULATIONS TO OUR PARTNER WINNERS!

The 2026 Annual Partner Meeting and Awards Presentation can be [viewed here](#).
