## What is REAP?

The Residential Energy Affordability Partnership (REAP) is a free PSEG Long Island program for income-eligible customers designed to save energy and reduce electric bills. Participation in REAP can make your home healthier and safer. In addition, participants are guided to other non-PSEG Long Island services that can help them with special needs.

## Free Home Energy Survey

A REAP technician will come to your home and provide a FREE HOME ENERGY SURVEY and teach you how to use less electricity by practicing energy efficiency.

As part of a home energy survey, a REAP technician will inspect your:

- electric appliances
- lighting
- heating system and other electric energy consuming equipment to determine just how energy-efficient they are.

The REAP technician will talk to you about your energy usage habits and give you valuable information about energy-efficiency and provide practical suggestions, like lowering the temperature on your thermostat and using energy-saving settings on appliances. The technician will evaluate all the information gathered to help determine how much money you could save on your energy bills.

## You Are Eligible for REAP if:

- ◀ You have a PSEG Long Island account number
- ◀ You own or rent your house and it is your primary residence
- ◀ You meet the income guidelines

## Energy Efficiency = Energy Savings

One of the easiest ways to save energy and reduce costs is to increase the energy-efficiency of your home. During the home survey, a REAP technician may install basic energy-saving measures in your home...at no cost to you! The survey evaluates energy savings opportunities and identifies related home health and safety measures impacting air quality. If opportunities for improving energy efficiency are found, we'll help start the process by providing select services at no charge. If you're interested in even greater energy savings, our REAP technician will help guide you to other efficiency programs.

## To Learn More About REAP

Call us toll-free at **1-800-263-6786** or complete and mail the attached, postage-paid card.

You can also email us at **reapli.gr-mfc@lmco.com**. A REAP team member will contact you to schedule a home survey and answer any questions you may have about REAP.

**Tienes dificultad en manejando sus cuentas? Nuestro Programa de Asociación de asequibilidad de energía residencial (REAP) puede ser la respuesta. El programa REAP ayuda casas elegibles manejar sus cuentas eléctricas a través de la educación y de la instalación posible de dispositivos que ahorra energía sin coste a usted.**

**Si quieres obtener una copia de esta informacion en español, llámenos al 1-800-263-6786. Hay representantes que hablan español.**
