

CEP Program Announcement - 2017-06: Updated Fast Track and Comprehensive Lighting Applications Version 3.0

Dear Energy Efficiency Program Participants:

We are announcing the following changes to the PSEG Long Island Commercial Efficiency Program's Fast Track and Comprehensive Lighting components. **Changes effective at 3:00 p.m. today:**

Rebate Adjustments August 25, 2017		
Product	V2.0 Rebate (Per unit)	V3.0 - New Rebate (Per Unit)**
LED 2x2	\$60	\$35
LED 2x2 Retrofit Kit	\$50	\$30
LED 2x4	\$80	\$50
LED 2x4 Retrofit Kit	\$60	\$35
LED Downlights	\$60	\$35
LED High Bay	\$175	\$100
LED Lamps	\$6	\$4
LED 4' Linear Ambient	\$50	\$30
LED 2' Linear Ambient	\$25	\$15
LED Low Bay	\$150	\$30
4' LED Tube	\$8	\$5
2' LED Tube	\$6	\$4
Ceiling Sensor	\$35	\$20
Daylight Sensor	\$40	\$25
Occupancy Controlled Hi-Low Sensor	\$40	\$25
Fixture Mounted Daylight Sensor	\$30	\$20
Fixture Mounted Sensor	\$35	\$20
LED 1x4	\$60	\$35
LED Parking Garage	\$160	\$100
LED Retrofit Kit	\$35	\$20
Refrigerated Case	\$50	\$30
Wall Sensor	\$15	\$10

2017 Commercial Efficiency Program

** V2.0 Rebate levels will continue to be honored on the South Fork, east of the Shinnecock Canal due to system needs in that area until further notice. This exception applies to both Fast Track and Comprehensive Lighting.

Fast Track

Fast Track Rebate Schedule 2017 v3.0 is available on the PSEG Long Island website. New rebates are effective at 3:00 p.m. today, August 25, 2017. The Fast Track version 3.0 worksheet will be sent to Prime Efficiency Partners.

Any complete Fast Track applications and all associated Required Documents, including photometric analysis for any project containing high bay and low bay fixtures ("Project Submittals"*), must be received by the CEP mailbox (cepli@pseg.com) prior to 3:00 p.m. today in order to be eligible for version 2.0 rebates.

- Any new Project Submittals received after 3:00 p.m. on 8/25/17 will be paid under version 3.0 rebate values.
- Any incomplete Project Submittals will be paid under version 3.0 rebate values.
- All Project Submittals must be emailed to the CEP Mailbox in order to be eligible for version 2.0 rebates. Any emails directed to CEP staff members may not be accepted.
- Any complete and validated Project Submittals previously received by the CEP mailbox and not yet processed will be paid at version 2.0 rebate levels.

*Project Submittals – all required documents listed on the application, plus photometric analyses for projects containing high bay or low bay fixtures, pre-project survey indicating existing conditions and appropriately identifying locations, and a proposal containing proof of acceptance from customer.

Comprehensive Lighting

Comprehensive Lighting Application 2017 v3.0 is available on the PSEG Long Island website. New rebates are effective at 3:00 p.m. today, August 25, 2017.

Any complete and validated Comprehensive Lighting Project Submittals*, including photometric analysis for any projects containing high bay or low bay fixtures, received prior to 3:00 p.m. today 8/25/17 will be preapproved at version 2.0 rebate values.

- Any new Project Submittals received after 3:00 p.m. on 8/25/17 will be paid under version 3.0 rebate values.
- Any incomplete Project Submittals will be paid under version 3.0 rebate values.
- All complete Project Submittals must be emailed to the CEP Mailbox in order to be eligible for version 2.0 rebates.
- Any emails directed to CEP staff members may not be accepted.
- Any complete and validated Project Submittals previously received by the CEP mailbox and not yet processed will be paid at version 2.0 rebate levels.
- Any project that is not preapproved because products do not qualify, Project Submittals were incomplete, pre-inspection identifies different conditions, where a scope has changed, or where another discrepancy was identified will be paid at version 3.0 rebate values.
- Any expired preapprovals will be paid at current rebate values.

2017 Commercial Efficiency Program

*Project Submittals – all required documents listed on the application, plus photometric analyses for projects containing high bay or low bay fixtures, pre-project survey indicating existing conditions and appropriately identifying locations, and a proposal containing proof of acceptance from customer.

Any questions/concerns/issues with the Applications or Worksheets should be directed to the CEP Mailbox cepli@pseg.com or your Energy Consultant/Project Specialist.
