SECTION 5: CHANGES IN SERVICE PROVIDERS

A. Applicability

This Section establishes practices for receiving, processing, and fulfilling requests for changing a customer's electricity provider and for obtaining a customer's authorization for the change. A change in a provider includes transfer from: (1) one ESCO to another; and (2) an ESCO to the Authority. This Section also establishes practices for: an ESCO's drop of a customer or a customer's drop of an ESCO, retention of an ESCO after a customer's relocation within the Authority's service area, assignment of a customer, and initiation or discontinuance of procurement of electricity supplies by a Direct Retail Customer. This Section does not establish practices for obtaining other energy-related services or changing billing options.

The process of changing a service provider is comprised of two steps. For enrollment with an ESCO, the first step is obtaining customer agreement, and any required third-party verification, to accept electric service according to the terms and conditions of an offer. A sales agreement establishes the terms and conditions of the customer's business arrangement with the ESCO. The second step is enrollment and the Authority's modification of its records to list the customer's transfer to a provider on a specific date. The second step is primarily between the ESCO and the Authority.

B. Customer Agreement

An ESCO, or its agent, may solicit and enter into a sales agreement with a customer subject to the following requirements.

1. The ESCO shall obtain a customer agreement to initiate service and enroll a customer and customer authorization to release information to the ESCO by means of one of the following methods.
 - a. Telephone agreement and authorization, preceded, or followed within three business days, by provision of a sales agreement, in accordance with requirements in Attachment 1 – Telephonic Agreement and Authorization/Third Party Verification Requirements;
 - b. Electronic agreement and authorization, attached to an electronic version of the sales agreement, in accordance with requirements in Attachment 2 – Electronic Agreement and Authorization Requirements; or

3. The ESCO shall provide residential customers the right to cancel a sales agreement within three business days after its receipt (cancellation period).
4. The standard Sales Agreements for each customer class shall include the following information written in plain language:
 - a. Terms and conditions applicable to the business relationship between the ESCO and the customer which includes:

1. provisions governing the process for rescinding or terminating an agreement by the ESCO or the customer including provisions stating that a residential customer may rescind the agreement within three business days after its receipt;
 2. the placeholder for the price or how the price is determined, the terms and conditions of the agreement, including the term and end date, if any, of the agreement, the amount of the termination fee and the method of calculating the termination fee, if any, the amount of late payment fees, if applicable, and the provisions, if any, for the renewal of the agreement; and,
 3. a clear description of the conditions, if any, that must be present in order for savings to be provided to the customer, if savings are guaranteed.
- b. Such contract shall also include on the first page thereof a Customer Disclosure Statement (the Statement). The text within this Statement shall state in plain language the terms and conditions described above and set forth in Attachment 4 – Sample Customer Disclosure Statement. When the form contract is used by the ESCO as its agreement with the customer, the Customer Disclosure Statement shall also contain the price term of the agreement. In the event that the text in the Statement differs from or is in conflict with a term stated elsewhere in the agreement, the term described by the text in the Statement shall constitute the agreement with the customer notwithstanding a conflicting term expressed elsewhere in the agreement.
 - c. Procedures for resolving disputes between the ESCO and a customer;

 - i. A statement that the ESCO shall provide at least 15 calendar days' notice prior to any cancellation of service to a customer; and
 - j. If a condition of service, a statement that the ESCO reserves the right to assign the contract to another ESCO.
5. Additional terms and conditions applicable to residential customers and customers solicited via door-to-door sales include:
 - a. Prepayments – no agreement for the provision of energy by an ESCO shall require a prepayment.
 - b. Termination fees – no agreement for the provision of energy by an ESCO shall require a termination or early cancellation fee in excess of either a) \$100 for any contract with a remaining term of less than 12 months; or b) \$200 for any contract with a remaining term of more than 12 months or; c) twice the estimated bill for

energy services for an average month, provided that an estimate of an average monthly bill was provided to the customer when the offer was made by the ESCO along with the amount of any early termination fee. To calculate such average monthly bill, the ESCO may use an average of the customer's actual usage for the previous twelve months or if such data is unavailable at the time the offer is made apply the usage for a typical customer in that service classification as reported by the Authority or the Commission, and multiply it by the ESCO's estimate of the average annual rate that will be charged under the agreement.

- c. Variable charges – all variable charges must be clearly and conspicuously identified in all contracts, sales agreements and marketing materials.
 - d. Material changes and renewals – no material changes shall be made in the terms or duration of any contract for the provision of energy by an ESCO without the express consent of the customer obtained under the methods authorized in the UBP-LI-ESCO . This shall not restrict an ESCO from renewing a contract by clearly informing the customer in writing, not less than thirty days nor more than sixty days prior to the renewal date, of the renewal terms and the customer's option to reject the renewal terms. A customer shall not be charged a termination fee as set forth in Section 5.B.3.1.a herein, if the customer objects to such renewal within three business days of receipt of the first billing statement under the agreement as renewed. Regarding contract renewals or an initial sales agreement that specifies that the agreement automatically renews, all changes to the terms of the contract, including changes to the supply rate, product or service type, will be considered material and will require that the ESCO obtain the customer's express consent for renewal. Notwithstanding the forgoing, when an agreement renews as part of a month-to-month product which guaranteed savings compared to the Authority price, or renews to a new product which guaranteed savings compared to the Authority price, the customer's express consent for renewal is not required.
 - e. A renewal notice in the standardized format provided by the Department, must be used.
 - f. The renewal notice must be enclosed in an envelope which states in bold lettering: **"IMPORTANT: YOUR [ESCO NAME] CONTRACT RENEWAL OFFER IS ENCLOSED. THIS MAY AFFECT THE PRICE YOU PAY FOR ENERGY SUPPLY."**
 - g. When a fixed-rate agreement is renewed as a fixed-rate agreement, the ESCO shall provide the customer with an additional notice before the issuance of the first billing statement under the terms of the contract as renewed, but not more than 10 days prior to the date of the issuance of that bill. For telephonic enrollments, in which the ESCO sends the customer the sales agreement via US Mail, the ESCO shall provide for two business days for the customer to receive the sales agreement.
5. After receipt of an enrollment request, the Authority shall, within one business day, acknowledge its receipt, and provide a response indicating rejection and the reason, or acceptance and the effective date for the change of provider.
6. Upon acceptance of an enrollment request, the Authority shall contemporaneously send a notice to the incumbent ESCO that the customer's service with that ESCO will be terminated on the effective date of the new enrollment. In the event that the Authority receives notice from the pending ESCO, the incumbent ESCO (with specific customer authorization for each cancellation), or the customer, prior to the effective date that a pending enrollment is cancelled, the Authority shall transmit a request to reinstate service to the incumbent ESCO, unless the incumbent ESCO previously terminated service to the customer or the customer requests a return to full utility service.

The customer shall return to full utility service at the end of the next switching cycle, unless the customer is enrolled by another ESCO in accordance with this section prior to the next switching cycle.

3. If a customer notifies the pending ESCO of such cancellation, the pending ESCO shall send a customer's drop request to the Authority within one business day.

F. Rejection of Enrollment Requests

The Authority may reject an enrollment request for any of the following reasons:

1. Inability to validate the transaction;
2. Missing or inaccurate data in the enrollment request;
3. ESCO's ineligibility to provide service in the specified territory;
4. No active or pending delivery service;
5. A pending valid prior enrollment request; or

They are also not applicable to matters that, in the opinion of the Department Staff, should be submitted by formal petition to the Public Service Commission for its determination or are pending before a court, state or federal agency. The availability of the processes does not limit the rights of the Authority, ESCO or Direct Retail Customer to submit any dispute to another body with jurisdiction for resolution.

The filing party shall provide a copy of the request to other involved parties and the Department Staff designated to receive information related to dispute resolution under this Section.
