RE: 2025 Home Comfort Partial House to Whole House Project Bonus Pilot

PSEG Long Island is pleased to announce a Home Comfort Partial House to Whole House Project Bonus. An increase in the customer rebate by 50% for all customers who previously installed a Partial House Cold Climate Air Source Heat Pump solution and choose to move forward with installing the remaining cold climate air source heat pumps needed to achieve a whole house solution. **This offer is for projects that will be completed by December 31, 2025.**

This offer applies to customers who previously participated in the Partial House NEEP listed Cold Climate Air Source Heat Pump offering and wish to convert the rest of their home to achieve a "Whole House" ccASHP solution. **The 50% bonus is for customer residences that were previously rebated by PSEG Long Island (on or after May 16, 2022) with eligible ccASHP installations.**

Please reach out to your Account Manager if you have any questions and for guidance in processing these projects with the existing workbook. A new updated rebate calculator will be available soon.
