RE: 2023 Home Comfort and Home Performance Program Application Version 2.0 Release

Dear Home Comfort Partners:

PSEG Long Island is pleased to release the 2023 Home Comfort and Home Performance V2.0 rebate application workbook. Effective immediately, all new project submittals must use the new application. The application will be available for download at <https://www.psegliny.com/saveenergymoney/homeefficiency/homecomfort/contractors>.

The V2.0 application workbook now reflects the recent changes to LMI rebates as stated in the [February 16th program announcement 2023-03](#). These new rebate levels will be applied to all new projects, as well as submittals received after February 14th and not currently pre-approved. You will be notified if required to re-submit a revised V2.0 workbook.

The rebates for LMI rebates Whole House Projects using Cold Climate Air Source Heat Pumps have been reduced to **\$2,000/12,000 heating BTUs @ 17°F Rated**. LMI Geothermal rebates have been reduced to **\$2,000/ton for Tier 1 and \$4,000/ton for Tier 2 projects**. In addition, rebates for LMI projects are now capped at \$20,000 (or 100% of the cost). Please start immediately using V2.0 workbook application for all new project submittals.

If you need any assistance regarding the Home Comfort Program or rebate application process, please remember you have two options for support. You can attend in person at TRC offices located at 395 North Service Road, Suite 409, Melville, NY 11747 or you can join us weekly on our [Virtual Open House meetings](#) held most Fridays from 9 to 10am.

Feel free to contact myself or Steve Sannuto steven.sannuto@pseg.com with questions.

On behalf of the entire Home Comfort team, thank you for your participation.

Sincerely,

Jonathan Tham
