

PSEG LONG ISLAND
HOME PERFORMANCE WITH ENERGY STAR®
PROGRAM ANNOUNCEMENT

Document #: HPwES 2022-05
Announcement Date: August 2, 2022

RE: 2022 Home Comfort and Home Performance Program Application Version 3.0 Release

Dear Home Performance Partners:

PSEG Long Island is pleased to announce the 2022 Home Comfort and Home Performance v 3.0 rebate application workbook. These changes are effective Wednesday, August 3rd. Please start using the v3.0 workbook for any new project moving forward. The application workbook is now available for download at the [contractor website](#).

- The Home Performance with ENERGY STAR rebates will increase to \$1,200 (HEMI) and low-to-moderate income (LMI) rebates will increase to \$6,000 and follow the measure chart below.

PSEG Long Island Home Performance with ENERGY STAR Eligible Rebate List		
Measure	HEMI Rebate	LMI Rebate*
Insulation	\$600	\$4,500
Air Sealing	\$300	\$1000
Duct Sealing	\$300	\$500

*LMI Rebates follow NYSEDA EmPower financial requirements with verifications completed by Energy Finance Solutions.

- The heat pump water heaters rebate increased from \$600 to \$1,000 and the contractor incentive increased from \$100 to \$250.
- There is now an additional \$500 contractor incentive for combination projects - air source heat pump installation (Home Comfort Program) and weatherization work (Home Performance) - on the same rebate application.

Projects that have already been approved will be completed at the approved rebate value, and not eligible for an increased rebate. Customers who have already claimed HPwES rebates will not be permitted to claim the additional increased rebate.

As a reminder, as of July 1, 2022, the HEA payment was increased from \$200 to \$250.

Please feel free to reach out directly with any questions or concerns.

Sincerely,

Steve Wagner
